

1 - Characteristic properties :

High quality two pack polyester putty to fill dents and surface irregularities of steel and wood surfaces.

2 - Materials for application :

- Polyester Putty.
- Hardener / peroxide.

3 - Suitable substrates and Surface preparation :

- Steel surfaces
- Primer-surfacer .

4 - Mixing ratio :

- 100 parts by weight of the putty.
- 2 parts by weight of hardener.

5 - Pot life :

When mixed, 3-4 minutes at 25 °C.

6 - Cleaning :

Of equipment in solvent a nitrocellulose thinner or El- Dababa thinner.

7 - Drying time :

Dry to flat

20 °C.	40 °C.
15 Min.	10 Min.

8 - Recommended sand paper Grades :

For dry mechanical flatting P80 - P180.

9 - Packaging :

1 kg, 2kg, 3kg, and special packing.

10 - Color :

Gray, yellow, and red.

11 - Shelf life :

Putty	12 months at 25 °C
Hardener	12 months at 25 °C

12 - Material safety data :

When using these products, it is required to comply with the national regulations for health and safety.
